

## TalkSwitch<sup>®</sup> IP telephones

### Advanced features and easy operation

Looking for line appearance, teleworker extensions that work just like local extensions and advanced programmability? TalkSwitch<sup>®</sup> IP phones are the answer. They're loaded with advanced features and configure themselves automatically. And because they plug into your computer network, you don't need to run phone wiring to each desk.

### Line appearance

Need to see which lines are in use and which are free? For employees who require line appearance, the TS-550i, TS-450i and TS-350i fit the bill.

### External IP extensions

Plug your TalkSwitch IP phone in anywhere and it can function just like your extensions in the office. It's the perfect solution for teleworkers or employees who split time between the office and their home office. Requires a VoIP-enabled TalkSwitch system and broadband Internet access.

### TS-550i
